Challenges and Innovation in Civil and Environmental Engineering and Earth Sciences FALL 2020 Seminar Series

Thursdays, 3:55pm-4:55pm, online via ZOOM, email westerink.5@nd.edu for zoom link

August 27

Megan Hart, ND CEEES B.S. '08, Ph.D. '16
Managing Director, Reinsurance Solutions, Aon
Preparing for the Storm: Managing Risk using Catastrophe Models and Lessons Learned from Past Events

September 3

Don Howard
Professor of Philosophy and Fellow, Reilly Center for Science, Technology, and Values, ND
Expertise and Responsibility: Why the Possession of Specialist Knowledge Entails an Obligation to Moral and Political Action

September 17

Nancy G. Love, Ph.D., P.E., BCEE
Borchardt and Glysson Collegiate Professor, Department of Civil and Environmental Engineering, University of Michigan
Rethinking America's Urban Water Infrastructure: Resource Efficiency, Access, and Public Health

October 1

James L. Barnard, Ph.D.,D.Ing.h.c.,Pr.Eng. BCEE, WEF Fellow, Dist. MASCE
Global Practice & Technology Leader, Advanced Biological Treatment, Black & Veatch
Good News and Bad News About Global Water Reclamation

October 8

Paul Giroux, Dist.M.ASCE
Senior Estimating Manager, Kiewit Infrastructure West Co., civil engineering historian
Building Golden Gate Bridge

October 29

Katie Wilson, P.E., ND CEEES '14
Project Manager, Clark Construction Group, LLC
Allegis Sant, ND CEEES '15
Project Manager, Clark Construction Group LLC
A Career in Construction – Problem Solving Through the Life Cycle of a Project

November 5

Gregory P. Benz, ND B. Arch '76, RA, AICP
Senior Vice President, WSP
Future Ready™ -- Question Today, Imagine Tomorrow, Create for the Future, Research & Innovation Driving Professional Practice
